

HARDSCAPE MAINTENANCE

After pavers are installed:

- ✚ As the sand in the joints settle, sweep additional jointing sand into the joints to keep the bricks from moving

The year after installation:

- ✚ Re-sand paver areas with jointing sand
- ✚ Seal the paver areas with Unilock brand sealer

The benefits to taking care of your investment:

- ✚ The sealer will help prevent weed growth
- ✚ The sealer will reduce oil and dirt penetration
- ✚ The sealer will help alleviate insects

Please feel free to contact the office next season to receive your free estimate to maintain your investment.
